

MOHD EHTESHAM

React Native Developer

Bengaluru, India | +91 6306640599 | ehteshamidrishi@gmail.com | mohdehtesham.github.io/Portfolio

PROFESSIONAL SUMMARY

React Native specialist with 4+ years of experience building production-grade cross-platform mobile apps for Android and iOS, with a strong ed-tech background. Currently at Motion Education, building the Motion Learning App for JEE, NEET and CUET aspirants. Deep expertise in React Native CLI, JavaScript/TypeScript, Redux, REST APIs, Firebase, video learning, in-app payments, BLE and Maps. Owns features end to end, from technical design and performance tuning to production debugging and Play Store / App Store releases.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript
Mobile	React Native (CLI), Android, iOS, Cross-Platform Development, Flutter
Frameworks & Libraries	React, React Hooks, React Navigation, Axios
State Management	Redux, Redux Toolkit, Context API, AsyncStorage
Backend & APIs	REST APIs, JSON, JWT Auth, Refresh Tokens, Pagination, Centralized Error Handling
Firebase	Authentication, Firestore, Cloud Messaging (FCM), Crashlytics
Media & Learning	Video lectures, live classes, in-app test engines
Native Integrations	BLE, Push Notifications, Deep Linking, Geolocation, Camera
Maps & Payments	Google Maps SDK, HERE Maps, Stripe (Payment Intent), In-App Purchases
Build & CI/CD	Xcode, Android Studio, CocoaPods, Gradle, Fastlane, GitHub Actions, Bitrise, App Center, Play Store, App Store
Practices	Agile/Scrum, Code Reviews, Mobile Architecture, Performance Optimization

PROFESSIONAL EXPERIENCE

React Native Developer <i>Motion Education Pvt. Ltd.</i>	Jul 2026 – Present Bengaluru, India
- Develop and maintain the Motion Learning App (Android & iOS), Motion's exam-prep platform for IIT-JEE Main & Advanced, NEET-UG, CUET-UG, Olympiads, Boards and Class 6–10 Foundation. - Build the AI Homework System flow that generates personalized practice sheets from each student's test performance and highlights weak topics. - Develop the test engine for mock tests, DPPs, PYQs and the question bank, with real-time performance reports, test analysis, peer comparison and All-India ranking. - Integrate scan-to-solve doubt solving: students scan a question with the camera and get instant video or text solutions. - Implement video learning: live classes and recorded lectures from Motion faculty, with optimized streaming for smooth, buffer-free playback. - Build course and study-package purchases, free trial classes, Refer & Earn rewards and location-based package offers. - Improve app stability and performance under high concurrent load; work with product, academic and backend teams in Agile sprints and ship regular Play Store / App Store releases.	
React Native Developer <i>Buddy4Study</i>	Sep 2024 – Jun 2026 Noida, India
- Architected and shipped React Native apps serving 500,000+ students for scholarship discovery, applications and document submissions. - Owned REST API integration with secure auth, token refresh, pagination and centralized error handling, reducing failed requests. - Implemented FCM push notifications across foreground, background and terminated states, driving engagement and retention. - Designed a scalable Redux architecture for async workflows, complex data flows and offline-friendly UX. - Led real-time video interaction features: session scheduling, in-app notifications and event-driven triggers. - Reduced list scroll lag via FlatList virtualization, memoization and efficient re-render patterns.	
Associate Software Engineer (React Native) <i>OTS Solutions Pvt. Ltd.</i>	Sep 2022 – Aug 2024 Gurugram, India
- Delivered cross-platform apps across fintech, healthcare, IoT and event management, from design to production. - Integrated Stripe using Payment Intent architecture for PCI-compliant payments and subscriptions. - Built BLE modules for device pairing, encrypted communication and real-time data exchange with IoT hardware. - Configured Firebase Auth, Firestore, push notifications and Crashlytics for monitoring and proactive issue resolution.	

- Built reusable UI component libraries and navigation structures, speeding delivery across client projects.
- Managed end-to-end Play Store and App Store releases; mentored junior developers through code reviews and pair programming.

KEY PROJECTS

- **Motion Learning App (Motion Education)** — Exam-prep app for JEE, NEET, CUET, Olympiads and Boards: AI Homework System for personalized practice sheets, live and recorded lectures, mock tests, DPPs, PYQs, question bank, scan-to-solve doubts, real-time performance reports with All-India ranking, course purchases and Refer & Earn.
- **Buddy4Study Scholarship Platform** — Scholarship discovery and applications with auth, REST APIs, document uploads, push notifications.
- **Buddy4Study Video Interaction Platform** — Scheduled video sessions with Firebase notifications and real-time event triggers.
- **Rupa Rahul Bajaj Scholarship App** — Onboarding and application tracking with API-driven workflows and document management.
- **Door2Door Flights and Mobility App** — Travel booking with HERE Maps: flight search, ride booking, real-time trip tracking.
- **Gun-Lox Smart Lock** — IoT app using encrypted BLE for secure smart-lock control and access management.
- **Penn-AI Speech Recognition** — Real-time speech-to-text transcription app.
- **Transplant Healthcare Platform** — Kidney and pancreas transplant workflow management for patients and clinicians.
- **Vow-Timer Wedding Planner** — Countdowns, reminders, RSVP management and guest notifications.

EDUCATION

Bachelor of Technology (B.Tech)

KIPM College of Engineering and Technology (Dr. APJ Abdul Kalam Technical University)

2018 – 2022

Gorakhpur, India
